From

The Rev Commr in Mysore

No D2/23-24 dy 31-12-23

Forwards with his recommendation & estimate for sinking gokattes in the Anekal Taluk and states that the expr will be met out of melakh & that the D.C. will be asked to take mutchalikas from the ryots to pay contribution, wherever possible. gokattes are perhaps to be treated as village improvement works. Beyond giving work to a few people in sinking these gokattes, they do not seem to serve much useful purpose, as there is no rain and consequently the gokattes will not get any water at present

Kind refce is invited to para 5 of G.O. dated 26-12-23. in this connection. Reference has to be given

3/1/24

Dev. Secy. Of the Eight Estimates, only 2 are new works, & the rest are only cases of deepening or improving existing Go-kattes.

These works are essentially Village Improvement works. Considering their nature, & the amount of the estimates, their value in the way of finding employment to labourers is insignificant — Anekal is not one of the badly affected areas, and it does not seem necessary to waive the rights share of the Contributions If the ryots pay, or give a mandate chalika to pay, the Contributions these works may be sanctioned as usual Village Improvement works
